In FY 20, the Main Club (not including divisions) had \$454K income and \$464K expenses, leaving the Main Club with a loss of \$10,000. Consolidated (main club and all divisions) expenses were \$873,000, while consolidated income was \$852,000.

The budget for FY 21 approved by the BOD includes a projected loss for the main club, but that loss includes \$85,000 in depreciation, which will not all be spent, resulting in a positive cash flow.
